

About Business China Youth Chapter

Business China Youth Chapter (BCYC) was formed in 2010 by a group of voluntary student members with strong support from Business China. Throughout the years, BCYC has grown from strength to strength and has devoted itself to being the leading Singapore-based youth community, equipping youths with various skills to be China-savvy and China-ready.

BCYC provides a platform for selected bilingual and bicultural youths to interact with other like-minded peers from various institutions. In addition, BCYC also frequently organises private sharing sessions with both local and international prominent business leaders and high-profile speakers to facilitate trans-generational knowledge exchange and insights generation. Another key activity exclusive to BCYC is the annual BCYC China Learning Journey, which allows Singaporean youths to experience China on-site, allowing members to forge friendship and establish networks with Chinese students, professionals and corporations in China.
